

Job Title: Event Sound Specialist

Job Overview:

The Event Sound Specialist is responsible for managing and operating audio equipment for school events, ensuring high-quality sound for assemblies, performances, sports events, and other school functions.

Responsibilities:

1. Setup and Operation:
 - Set up, test, and operate sound equipment, including mixers, speakers, and microphones for various school events.
 - Ensure all audio equipment is functioning correctly before events.
2. Sound Management:
 - Control audio levels and adjust sound quality during school events.
 - Troubleshoot and resolve sound issues promptly.
3. Technical Expertise:
 - Maintain and update audio equipment inventory.
 - Stay updated with the latest audio technologies and best practices.
4. Collaboration:
 - Work with teachers, event organizers, and students to understand sound requirements.
 - Coordinate with other technical staff to ensure seamless event execution.
5. Maintenance:
 - Conduct regular maintenance and repairs on audio equipment.
 - Ensure all equipment is stored correctly and safely.
6. Training and Support:
 - Provide training to students or staff interested in learning about audio equipment.
 - Offer support and guidance during student-led events.

Qualifications:

- Proven experience as a sound technician or similar role.
- Proficient in using audio equipment and technology.
- Strong problem-solving and troubleshooting skills.
- Excellent communication and teamwork abilities.
- Flexibility to work evenings, weekends, and holidays as needed.
